ENGINE ROOM & MECHANICAL

- Twin Caterpillar C-32 engines rated 1550 BHP with ZF Marine Gears
- By-pass muffler system with above water exhaust at idle and under water at slightly above idle speed
- Custom FRP drip pans under each engine
- Engine alarm system for low oil pressure and high temperature
- Engine foundation constructed with extra GRP reinforced engine beds with steel channels
- ZF Electronic engine controls with (2) MC2000-2 control heads, (1) handheld control supplied with 25' of cord and three plug-in locations on board (aft deck, Portuguese bridge deck and aft fly bridge)
- Triple (3) selectable Racor fuel filters model 75/1000MA fuel filters/water separator for each main engine
- (2) Northern Lights 220V/110V 65KW/60Hz generators with gas/ water separator mufflers. Start/ stop controls in engine room and pilothouse
- Dual selectable Racor fuel filters model 500MA fuel filters/ water separator for each generator
- Naiad stabilizers #353 with 16 sq ft fins and Datum digital control system at helm station
- Stainless steel prop shafts 4" in diameter - Aquamat #22 with dripless shaft seals
- Nibral 5 blade propellers
- Nibral shaft struts with Duramax cutlass bearings
- Stainless steel rudder assembly with SS rudder blades and shaft log with tides dripless shaft seals
- Integral engine driven hydraulic power package PTO pumps on each transmission for windlass, stabilizers and thruster operations
- Naiad hydraulic 16" bow thruster 60hp
- Hydraulic power steering system with PTO from engine driven pump and easily adaptable connector for autopilot
- Bronze sea cocks, Groco sea strainers & thru-hull fittings all properly bonded
- All water discharge below water line

ENGINE ROOM & MECHANICAL CONT...

- Water tight engine room door from crew quarters to engine room with port light
- Work bench with SS sink and mounted vice in engine room
- Delta-T Engine room compartment blowers with fan control
- Fresh-water tap with hose in engine room
- Multiple layers of sound proofing and heat insulation in engine room - Soundown vinyl foam soundproofing or equivalent
- White powder coated aluminum perforation paneling on walls and ceiling of engine room to protect sound proofing
- Painted white aluminum diamond plate style flooring on engine room floor
- Engine room 220V/40W AC fluorescent lights (explosion proof) & DC back up lights
- Oil X-Change-r oil exchange pump with plumbing system for main engines, engine transmissions and gensets
- Fuel transfer pumping system with heavy duty transfer pump - Oberdofer pump with Fuel Rite meter
- Engine driven fire pump with emergency bilge pumping capability
- Excessive heat and smoke detection sensors
- Emergency 24V lighting system
- Door to crew quarters space sound insulated and watertight with glass port
- Telephone outlet
- Pre-wire and pre-plumb for optional Headhunter waste treatment system
- Pre-wire and pre-plumb for optional water maker

GENERAL EQUIPMENT AND OTHER FEATURES

- 220V/ 110V 60hz single phase electrical system
- Two (2) Northern Lights 65KW/60Hz 220V/ 110V generators single phase with sound shields and gas/water separator mufflers
- Shore cable TV/ telephone inlet
- Shore power inlets: (2) 100amps each with Glendinning cable master CM8 w/ 120 feet each of shore cord
- Battery chargers- 80A/24V x 1, 30A/24V x 1 and 30A/12V x 1
- Battery power management system with selector switches in engine room
- A/C power source management system in engine room with remote control on main panel on main deck
- Boat panel with indicator/ warning lights for navigation lights, bilge pumps, high water bilge alarms in pilothouse
- Vimar duplex receptacles located throughout. Vimar push button dimmers in main public areas and all guest cabins
- GFI receptacles in engine room, galley, bathrooms and exterior

GENERAL EQUIPMENT AND OTHER FEATURES CONT...

- Vimar light switches and dimmers
- Color coded tinned wiring for easy identification
- Lifeline AGM batteries - 4 x 200AH for main engine starting, 8 x 200AH for house service
- Lifeline AGM batteries - 2 x 200AH in total, one for each generator starting
- Main electric panel includes separate AC power control, circuit breakers, voltmeters, and ammeters
- 24 Volt DC monitoring and main circuit breaker panel
- Newmar converter 24V/12V 35A for 12V equipment - Newmar # 32-12-35
- LED Indirect lighting under valances in salon, staterooms, pilot house and galley
- 24V LED lights throughout - Imtra, Cantalupi or equivalent
- Bonded electrical system throughout with grounding plates
- Lightning conductor/ arrestor system
- Smoke detectors /fire alarm system with sensors in each stateroom, salon, dining room, galley, pilothouse, sky lounge and the engine room
- Two (2) 100A shore power isolation/boosting transformers for 220/110V/60Hz shore power system – Charles Industries
- DC power supply transformers, AC to DC24V for interior lighting
- Zinc plate for bonding
- Two (2) Newmar 100A galvanic isolators
- Bilge Hi-Water level alarm for each compartment with display and alarms in pilothouse

SKYLounge / PILOTHOUSE, BOAT DECK & PORTUGUESE BRIDGE

- Teak & holly wood floor in pilothouse and skylounge, satin finish
- Custom console with all instruments for main engines gauges & controls, and all navigation equipment controls/ displays
- Pantograph windshield wipers and washers for all forward facing windows - Exalto wiper motors 24V with master control panel
