

Outer Reef Yachts Launches New 86' Skylounge Motor yacht built to Bureau Veritas Classification

Outer Reef Yachts of Ft. Lauderdale recently launched their new 86' skylounge long range MotorYacht, fully *BV (Bureau Veritas)* Classed.

Bound for Turkey, this new flagship of the Outer Reef line will be plying the waters of the Mediterranean Sea and the scenic islands along the coast of Turkey.

Built for very experienced yachtsmen and shipping magnet in Istanbul, he insisted on a yacht built to exacting standards and of the highest quality. Sea Trials were performed in Taiwan in Mid December and the yacht performed flawlessly, under the scrutiny of BV inspectors, the owner and his Captain.

The yacht is also equipped with STAR system (Stabilization at rest) provided by TRAC and the system exceeded everyone's expectations.

"We are extremely pleased with our new 86 Skylounge and how she has performed. Building this vessel to class and for such a knowledgeable owner has made all of us at Outer Reef very proud", says Jeff Drucek, President and CEO of the company.

Outer Reef Yachts is also currently building a new 70' model for an Australian client to *Queensland Commercial Survey*, a very stringent building code for commercial vessels. This vessel will be put into commercial charter service and will serve as a mother ship for sport fishing expeditions on the Great Barrier Reef.

Outer Reef Yachts builds custom long range motor yachts from 60'-118' and has offices in Ft. Lauderdale, Annapolis, Seattle, Sydney, Southampton UK, London, Monaco, Palma & Milan.
